

FCC,

I do not want Bell South, SBC and others not subject to regulatory review of their broadband pricing to independent ISPs like Sonic.net. Also I am concerned that if they were not required to provide access to all ISPs, independent ISPs would have to individually negotiate pricing and the ability to interconnect, which would undoubtedly raise their prices, and consumers in the long term. Please don't allow the independents to be driven out of the market. Inevitably, this will only raise the consumer costs and reduce service. You are a public agency, so do your job and keep the fair access available to the independents.

Susan Gonzales
